1. Ensure entrance gate to the property is closed after each entry and exit.

3. To prevent the spread of kauri dieback, please clean mud from your shoes and Stay on the roads and walking tracks only.
4. Do not go on the Service Roads (S1...S10). These roads are for maintenance staff only.
5. The walking tracks are covered with gravel of varying sizes. Loose gravel can be slippery, especially on down slopes. Watch your steps and do walk slowly. Do not run or walk backwards.
6. Be careful around the stream and the ponds as the ground can be wet and slippery.
7. Do not touch pest traps or bait boxes.
8. Be careful around boundary fences. Do not touch barbed wires or electrified fences.
9. **No smoking** anywhere on the property.
10. Please leave **No rubbish** behind - take it home with you. There are no rubbish bins in the reserve. Not only does rubbish attract wasps, it will also attract other pests like rats and stoats. Please keep CUE Haven pest and litter free.

The main road up – Huarahi Kowhai, is steep.

We would suggest taking the less steep tracks uphill which go along the stream. The shortest scenic route to Te Rite o Taranaki is 1.28 km, via Tui Track (#11), Kukupa Track (#12), Riroriro Track (#13), Titoki Track (#14), Kohekohe Track (#15), Rimu Track (#16), and Miro Track (#17).

Feel free to explore all the tracks at your leisure. ***There are benches along the way for you to relax and have your picnic along the way and also at the various Wāhi around CUE Haven.***

Feel free to leisurely walk of this circuit with rest stops can take 2 + hrs. Enjoy!!
